

Exhaust protector IP65

Remark: with BSP1/4 thread

Group: -

Order-No. : 126.920.00, 201.582.00

Symbol :

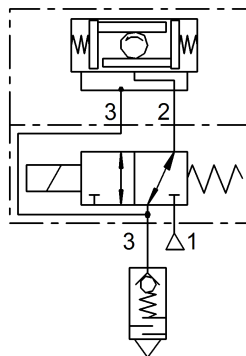

Technical data :

- max. working pressure 10 bar
- Body material PA6
- Seal material EPDM
- Working medium air or inert gases
- Degree of protection IP65

Application :

The exhaust protector IP65 is specially suitable for solenoid valves in outdoor applications and for applications of solenoid valves with NAMUR interface and integrated spring compartment aeration. The non-return system prevents from entering of polluted ambient air or rain into the actuator or solenoid valve, which results in higher function security and longer life time.

Application example :
